It will be seen from the official publication of the Board of Examiners in another column, that the certificate of election in the Fourth District, contrary to the expectations of most persons, has been given to W. C. Anderson. We had neither time nor space, at the late hour at which we received the copy of the returns from the Secretary, to characterize the action of the Board as it deserves.

For the present, it is sufficient to say that the official returns before the Board showed a clear majority for Chrisman; and the attempt to deprive him of his seat in Congress will meet with indignation from all right-thinking men.

The flimsy argument and the weak attempt to conceal the facts, which is put forth by the Board to cover up their short-comings, will miserably fail in their purpose. The production of the Governor, Secretary, and Attorney General, will hurt nobody but themselves and the expiring political faction which in this instance it is to be hoped they misrepresent.

When the Board can prove that 56 and 1 make 47 on Chrisman's side of the poll in Cumberland county, they can satisfy the people that they acted fairly; but not till then. Among the numbers of Democrats now present in Frankfort there is but one opinion of the action of the Board, and we will not mar the good feeling now prevailing in the festivities of the Inauguration by repeating it in plain language. The last act of the Know-Nothing administration is in perfect keeping with its former practices.

The Majorities.

From the certificate of the Board of Examiners, in another part of our paper, it will be seen that the candidates upon the Democratic State ticket are severally elected by the following majorities, viz:

Magoffin—Governor.....8,904
Byrd—Lieutenant Governor.....11,713
James—Attorney General.....12,886
Green—Auditor.....7,895
Garard—Treasurer.....13,463
Frazier—Register.....13,953
Richardson—Sup. of Pub. Instruction.....13,956
Bates—President Board of Ind. Imp.....12,704

The average majority of the ticket is 11,369. Magoffin's total vote is 76,187—the largest ever obtained by any candidate in this State. Who says that Kentucky is not Democratic to the core?

The Fifth District sends three Democrats and one Oppositionist to the Senate and nine Democrats and two Oppositionists to the House. This is a gain of one member over the last Legislature.

At the time of going to press our town is full of overflowing of the Democracy of all parts of the State to witness and take part in the ceremonies to come off to-day.

George W. McDonald, Jr., has been appointed U. S. Deputy Marshal for Northern Kentucky.

[For the Yeoman.]

The returns of the Board of Examiners will be found in another column. We scarcely know how to criticize the law or the logic. It is difficult to take folly to pieces so as to show up its mistakes. Does Gov. Morehead, in cool consideration and of his own head, intend all of this wasted time to be drawn upon the editors of Kentucky? Does he expect his friends to defend, or his enemies to attack, such law? Does he really believe that the Bullitt and Wheat case is entirely forgotten? We have the intensest respect for him. We believe he is a true and honorable Kentucky gentleman, but really, we fear he has made a mistake—we are afraid he has fallen into error—we are, perhaps, ashamed of him, and hesitate to bring the influence of the law to bear upon him.

Is it seriously a fact that the correct returns are a statement by the clerk that after the Examiners had given the certificate of the vote of the county, he, the clerk, had loaned the poll books? Is it positively understood that there is no real mistake about the duties of the Governor of Kentucky, his Secretary of State, and Attorney General? Will they compel us to quote the Statutes of Kentucky to its law-givers, or must we, after three years' civil intercourse with a kindly, clever gentleman, have to say how gravely we disagree with him.

Is it seriously and entirely possible, after all the returns from the district (which district?) were in, that letters were filed, and had the Examiner made a mistake? Did the Governor know he had made a mistake? Did the Secretary of State know of an error, and was the Attorney General assured of a well was the Attorney General assured?

Have you king, queens, and honorable gentlemen felt constrained in the exercise of your best judgment on the proper construction of the laws to reject all of the amended returns? Couldn't you spare one of the little chicks? We are sorry that it was absolutely and positively necessary to issue the certificate according to the original returns to the Secretary of State.

We regret your law. We are sorry for your interpretation. Must they be delivered in a sealed envelope? Is it positive that any thing must be delivered in a sealed envelope?

Are you—we ask you out of pure love and intense affection—are you—sure of any position you have taken? We never were the Governor of Kentucky. It is among the possibilities that we may not be; but we would like to be fully informed, respectfully informed, upon your law, logic, and English. We are liable to make mistakes. You Opposition have said so frequently, and we know you are correct; possibly, from your political success, we ought to be positive.

Were such additional returns legal? Can you not be positive, fellow-christians, fellow-scholars, fellow-committee men? Would you, our dearest friends, be required to receive them? We would like for you to inform us.

We trust that you didn't read all that you said of Nelson county. We are sure—we love you too much to believe that you read any thing about the Bullitt and Wheat election, and the folly about the State Board of Election.

We understand in your concluding paragraph that it is "proper to draw a distinction." We agree with you entirely. There are a number of elegant distinctions that possibly you ought to have drawn, and that we should have pointed out; but we have erred, nearly as much as the last Know-Nothing Governor of Kentucky.

Unfair Apportionment.

The Kentucky Statesman, commenting on the fact that although the Democracy have carried Kentucky by the largest vote ever polled in the State, yet the Opposition elect four if not five Congressmen, says:

"A comparison of the vote of the several districts shows the unfairness of the apportionment yet more clearly. The effort seems to have been to concentrate the whole Democratic strength of the State into two or three districts, and so divide the Opposition force as to give it a small but certain ascendancy in the remaining districts. For instance, the First, Fifth, and Tenth Districts give each a larger majority for Magoffin than Bell receives in every other District in the State combined. The Democratic majority in each of these Districts will exceed the aggregate Opposition majority in the five Districts carried by Bell. Magoffin carried seven Districts by 19,667 majority, while Bell carried three by 1,475. This is all the result of the partisan apportionment of the State by which Kentucky is misrepresented in the National Legislature, and her people defrauded of their true influence in Congress. These are facts to which the attention of the Democratic members of the next Legislature will be invited. Let them protect the people from such outrages, and see that Kentucky is truly represented in Congress."

Later From Europe.

Boston, Aug. 28.—The steamship *Etna* arrived last night with Liverpool dates to the night of the 13th inst., having sailed twelve hours after the *America*.

The Zurich conference has resolved to prolong the armistice until the ratification of the treaty of peace.

It is reported that the foreign Ambassadors in France would refuse to attend the Paris fete if the colors taken from the enemy were allowed to be carried in the procession.

The Bank of France has gained 67,500,000 francs in specie during the month of July.

Three per cent. rentes on the Paris Bourse had declined to 69 1/2.

A vague rumor prevails that Prince Napoleon was to be made sovereign of Tuscany.

The King of Prussia was not expected to live much longer.

The collision between Austrian and Prussian soldiers at Frankfurt was serious, but it is believed that no lives were lost.

Spain has resolved to increase the fortifications of Cuba.

The British Parliament was prorogued on the 13th inst., the day the *Etna* sailed. C. Lennox Wyke has been appointed Her Majesty's Envoy Extraordinary to America.

The *Telegraph* shares are quoted at £205. The Paris correspondents of the London press say that the Emperor is about to publish a political amnesty, including Changarnier, Louis Blanc, and Ledru Rollin.

The advices from Italy indicate serious trouble in the Dukedom. Secret emissaries of the fugitive Princes were fomenting discord. The people generally were directly opposed to the return of the Dukes, and Paris, the Dictator, of Modena, threatens to level the city to the ground sooner than see the Duke restored by force.

GREAT BRITAIN.—Parliament was prorogued on the 13th. The Lord Chancellor read the Queen's speech. She regrets that the interruptions during the session have prevented many important measures from being carried, and hopes for their early consideration at the next session.

The day having been concluded, England had been invited to take part in the conference of the Great Powers, should one be held; but no sufficient information on this subject to admit of a definite reply had been received. She would rejoice at being able to contribute to arrangements to secure a lasting peace. She hopes that the direct communication with Pekin will prove beneficial.

She hopes for a continuance of the existing amicable relations with all the powers, and rejoices at the complete suppression of the Indian rebellion. She promises her serious attention to the internal improvement of India. She gladsly assented to the bills providing for the naval and military reserves, and regarded permanent national defenses as of paramount importance. The restoration of the peace is congratulatory on the prosperity of the nation.

The Daily News says that the strike among the men belonging to the Building Association was likely to last long.

The Herald has reason to believe that the Grand Duke Constantine on leaving Lyde will pay a visit to the Emperor Napoleon at Biarritz.

The doings in Parliament on the 13th was not of great importance.

LONDON, Friday Evening.—The Times' city article says securities have gradually become weaker during the last forty-eight hours. The knowledge that the Indian and Russian loans would be forthwith introduced, contributed to the heaviness, though not to so large an extent as was expected. The effect was nevertheless prejudicial in every one of the department.

A similar influence was at work on the other side of the channel, and, while the position of politics may have something to do with the current of business, capitalists at the same time cannot be unmindful of the result of a steady absorption, such as is indicated by these operations.

The decline in consols was nearly one quarter per cent., and although during the day a slight rally occurred, it was not maintained, particularly when it was found that an additional fall had taken place in the fresh rentes, the positive gain in quotations was from 95 1/2 to 95, but the final price was 95 1/2 to 95 1/4, with fresh symptoms of dullness on more advanced course.

Boston, August 26.—The news from Italy in the papers received by the arrival of the *Etna* is contradictory. The Liverpool Post gives the following results:

The rumors published yesterday, that the Red Republicans had obtained an advantage over the friends of order in Parma, and that the Piedmontese had been driven from that city, is confirmed partially by the news received from Austrian official sources. On the other hand, we learn that Count Reiset, the French Emperor's special Envoy to Central Italy, had at Parma, handbills given out, his carriage, expressing the wish for annexation to Sarlinia.

The provisional government of Tuscany issued a proclamation to the people before the election took place, calling upon them to enable, by their conduct, the Emperor Napoleon to do for Italy what he intended for their good; and, it is stated besides, they have sent a special Envoy to Berlin to obtain the consent of the Prussian Government to the removal of the present dynasty.

With regard to the question as to who is to take the place of that dynasty, the Paris correspondent of the London Star returns to the project already mentioned, viz: a marriage between the Grand Duchess of Parma and the nephew of Victor Emmanuel, the Prince of Carignan, to be followed by other marriages destined to cement the union between the houses of Savoy and the Bourbons of Parma, and at the same time to promote the cause of Italian unity under the Sardinian supremacy.

In the Duchy of Modena everything seems in favor of union with Piedmont. The people run in crowds to view the dethronement of Francis V. The Duke, it is added, is in the environs of Reggio, where he wanders about in disguise in secret, to warn the zeal of his partisans. It is further stated that the Modena and Parmesan have been invited to a monster banquet, which is to take place at Placenza, for the purpose of coming to an understanding upon three points, viz: First, the dethronement of the former dynasty; second, the annexation to Piedmont; and third, confederation with Tuscany and Romagna to secure common political and military action.

The military riots at Mayence have been followed by a series of a more serious nature, in the neighborhood of the City of Frankfurt, the seat of the German Federal Diet, where fighting in the streets with side arms takes place daily. The Prussian soldiers on one side, the Austrian, Bavarian, and Frankfurt troops on the other. This news is not very reassuring for the continuance of peace on the continent. There is discontent in Italy and Germany, and in Germany, the opinion is gaining ground that there are serious obstacles to the establishment of the proposed Italian confederation.

The St. Petersburg Gazette on this last point asks how can absolutism Austria, theocratic Rome, constitutional Piedmont, the Two Sicilies, Parma, Tuscany, and Modena, be amalgamated? What measures can be adopted for the uniform development of the moral and productive forces of the nation? How can unity be established and discord prevented? Must Piedmont make a sacrifice of her liberal innovation to Rome or Vienna, or must the contrary take place. These grave questions, it adds, can only be decided by a Congress.

FRANCE.—The news from Paris is pacific in its tone. The Emperor has resolved to inaugurate a real and solid peace policy, and with this view he now proposes to reduce the export duty on certain raw materials, including coal and iron, and to promote railway works, and otherwise to give stimulus to trade and commerce.

TURKEY.—The Constantinople papers announce that the last earthquake completely demolished the tower of Erzerum, and even demolished the ramparts.

The *Etna* brought no regular files of the English journals, but a few miscellaneous papers were found on board, and forwarded to the agent of the New York Associated Press.

Democratic Convention.

BANGOR, August 26.—At the Democratic convention of the Third Congressional District, held a few days since, William H. Burrell and James G. McIntock were elected delegates to the national convention at Charleston. Both gentlemen are friends of Judge Douglas. Strong popular sovereignty resolutions were passed.

The recent election has resulted in the choice of BERIAM MAGOFFIN as the Governor of our State for the four years succeeding the 30th of the present month. The inauguration will consequently take place on that day at this the Capital of the State.

It is the universal custom of the citizens of Frankfort, (with that warm and generous hospitality for which they are so well known and which they know so well how to use,) and of the people of the State, without distinction of party, to celebrate with appropriate ceremonies an event of such great importance to all the citizens of this Commonwealth.

On this occasion we sincerely hope that the voice of party spirit may not be heard, and that, as citizens having a common interest in the prosperity and happiness of the State, we will cordially unite in showing that respect to the distinguished individual who has been chosen by the people to preside over them as their Governor, and as his future neighbors and friends, as will give him a hearty welcome to the Capital of our State, with whose destiny he will have so much to do for the next four years.

Assistant Clerkship of the next House.

We find the following card in the Louisville Democrat:

As a complement to an honest and reliable Democrat, one "without fear and without reproach," and for the purpose of securing an able, efficient and competent officer in the next House as Assistant Clerk, if Prof. W. W. Harney will accept a candidate for that position, he will give general satisfaction to the Democratic members elect of the Legislature, and will receive the support of

MANY MEMBERS.

We cordially indorse this recommendation of Mr. Harney. He is a genial gentleman, a ripe scholar, and a Democrat of the first water. One has but to read his contributions, literary and political to the columns of the Democrat to be convinced of this. If he permits his friends to use his name in connection with the office to which he is recommended, he may feel confident of a strong support from this district.—Bardsley Vassett.

Slave Protection

We have reflected no little on this question of protection of slave property in the Territories by Congress since the late canvass was over. It has two features in it. Many years ago the same question was up in Congress and before the country. One David Wilmont sprung the question by appending his "proviso" to a bill before Congress. Every pro-slavery man in the whole Union, as well as every conservative man, stood arrayed against it. It was but the counterpart to the present proposition to protect slavery in the Territories. The ground was then taken that Congress had no right to interfere with slavery in the Territories—it was said that Congress, under the constitution, could only legislate over the territory of the United States as property. So we say now—so says every man who has bestowed proper reflection upon the question at issue. If Congress has power over it, that power is somewhere delegated in the constitution. And if such a grant of power exists in that instrument, it has ever escaped our vigilance. Unless such power can be shown we shall regard it unconstitutional, and an unwarrantable assumption of power by Congress over that body to exercise it. We further regard any interference with slavery in the Territories, in the way of the establishment of a slave code, as unwise and inexpedient. The reason is too obvious to require illustration beyond a mere hint. The admission of the right of Congress to interfere in that way would be a *carte blanche* to that body to legislate against slavery—to exclude it from the Territories. That right conceded might, and probably would be the solemn plea of the death-knell of this glorious Union. Then we say to our friends everywhere let well enough alone.

The south has all the protection she needs, or can have, consistently with the laws and the nature of things.

If Congress may institute, Congress may abolish.

This proposition will not be denied. If Congress may protect, Congress may refuse to protect. Policy then dictates the *non intervention* principle, let it prevail.

In the year 1850, if we recollect aright, such was the zeal of the anti-slavery party north, that the Michigan Legislature passed a resolution instructing the Senators of that State to vote for the Wilmont proviso as attached to some bill. Gen. Cass refused to obey, while acknowledging the right to instruct, and resigned his seat. On that occasion he made a speech on the question which has no parallel. It would be proper to have a large edition of that able speech reprinted for distribution now. It would meet every point in issue about as well as if it had been made for the present occasion.

AN AURORA BOREALIS.—One of the most magnificent aurora displays ever witnessed in this latitude was seen about 9 o'clock last night. The whole heavens, from the boreal horizon to the

zenith, was brilliantly illuminated with a sea-colored light. The flashes were very vivid, and from east to west the entire expanse was divided into compartments which were glowing with all the prismatic colors of the rainbow. The phenomenon was as bright as a fairy dream and as fleeting, lasting only about a quarter of an hour. As the aurora faded away, the sky became clear, the stars shone out in goodly array, and the whole celestial appearance presaged "the storm was over and gone."

The northwestern sky was the portion most brilliantly illuminated, but in the northeast the rosy flush was exquisitely beautiful. We learn that the electricity in the atmosphere interfered seriously with the telegraph lines. Both the House and Morse lines between New York and Philadelphia were thrown out of connection at 8 o'clock its effect was felt at the Pittsburgh telegraph office, before the aurora was visible here; at 9 o'clock it was at its height, producing wonder and awe among our citizens.—*Lou. Jour.*

THE VESPER GAS LIGHT
OR
AIR LIGHT,
The Cheapest, most Brilliant, and
most Convenient Artificial Light
in the World!

THE Vesper Gas Light has won for itself a reputation for elegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage. It is not a case of a few minutes' trial, but a permanent one. It requires no chimney; there is no need of artificial ventilation; and the construction of the fixture is so simple, that it is able to get out of order, and a child could manage it readily. The gas burned in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or kerosene. It is entirely free from odor while burning, as by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, there being no flicker or unsteadiness in the flame. The Vesper Gas Light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in style to suit all tastes, from the plain single-light burner to the most costly chandelier. Each chandelier is perfect in itself; there is no need of a gas pipe or service pipes. The gas is generated in the burner, and all fixtures, from the cheap single-light burner to the expensive chandelier, can be used in the same premises. They are sold at prices which do not exceed the cost of the ordinary gas fixtures of similar style and capacity. The price list will be sent on request to any address on application.

MERCHANTS
visiting Louisville will not fail to procure the Vesper Gas Fixtures for their stores.

Churches, Hotels, Public Halls, and Private Residences.
throughout the State can now be fitted up with these elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of a room, and which, moreover, can be used in the most economical manner. Those who have examined and thoroughly tested the merits of the Vesper Gas Light, pronounce it the best and cheapest artificial light now in use.

The proprietor respectfully requests responsible merchants in every town and county in the State to correspond with him, and to the effect of their interest to him in introducing this unequalled light to their customers.
